

Say Goodbye to Manual Screen Grabs and Tedious Documentation. Say Hello to qTest eXplorer + JIRA.

qTest eXplorer is an innovative add-on to our qTest platform designed specifically for agile testers giving your team a rich documentation tool that simplifies scripted and unscripted testing by intelligently capturing each mouse click, field change, page change and more.

Taskbar

- 1 Click 'Mozilla Firefox Start Page'
- 2 Click 'Search or enter address'
- 3 Type in 'Search or enter address'
- 4 Click 'Search or enter address'
- 5 Type in 'Search or enter address'
- 6 Type in 'Search or enter address'
- 7 Type in 'Search or enter address' 'www.autotrader.com'
- 8 Press Enter

THE ONLINE HOME OF ALL THINGS STYLE

WEBSITE

Each day FQ.co.nz gives New Zealand women insight into who's wearing what, how to wear it and where to buy it. Our dedicated online team works with fashion and beauty experts from New Zealand's leading women's magazines - Fashion Quarterly, NEXT and Simply You - providing you with shoppable galleries of the items we're loving over, reporting on breaking industry news and featuring insider stories on our homegrown talent. FQ.co.nz is the ultimate guide for all things style.

Automatically record all test execution environment data and user interactions across desktop, web and mobile applications

Record

Intelligent capture technology tracks interactions from the testing session

Edit

Easily manage, edit and annotate the defect documentation

Share

Share and submit detailed defects into JIRA

Save Time

You do the testing, and we'll handle the documentation

Better Collaboration

Provide your JIRA dev teams with thorough steps to reproduce bugs found

Explore More

Go deeper into an application than ever before to find bugs and areas of improvement

Streamline Submission

Submit your session steps annotations into JIRA as bugs or any other issue type

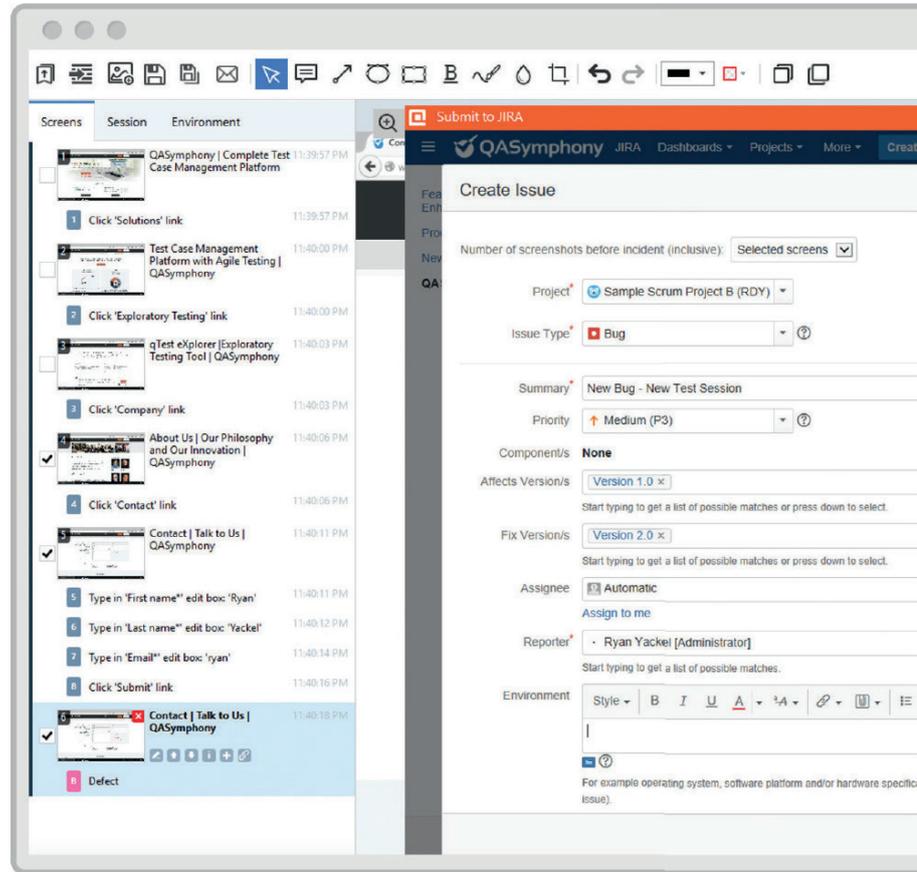

Centralize Test Sessions

Keep all your test documentation in one, centralized location for everyone to access

Robust Documentation

Generate highly detailed reports for auditing, training and compliance

Benefits for the Testers

- ✓ Write test cases faster
- ✓ Stay organized with less effort
- ✓ Store everything in one location
- ✓ Coordinate with other testers
- ✓ Dedicated tool for exploratory testing

Benefits for the Team

- ✓ Encourage collaboration and eliminate redundancy
- ✓ Align QA and UAT efforts
- ✓ Greater visibility into the testing process
- ✓ Generate reports that make insights easier
- ✓ Manage all session debriefs in one central location

Benefits Across an Organization

- ✓ Continuously improve testing process
- ✓ Minimize post production software defects
- ✓ Accelerate the testing life cycle
- ✓ Get better visibility across the software development lifecycle
